RE: Public comment on Proposed Rocketship #8 on the Tamien site

I give my testimony through this hereby at Washington Elementary School. This school has offered so much support to all of the students here. With much support and work the parents have tried to keep the school clean of bad habits and have kept gangs away. This school counts on good and experienced teachers that know how to deal with students. For this same reason I ask for consideration for this school, and that you take our opinion into account as families and worried parents about our kid's education. We are asking for more help on constructing a Middle School close by, since we don't have one close by. Our kids have to go far from here and by doing that we can not keep an eye on them.

Attention: A worried mother about her kids.
